

North

Figure 3: Bull Hill Sub-Basin

South

\* Locations of drill core illustrated in this figure  
 X Locations of drill core described in text but not illustrated here  
 Cores are measured in feet  
 Crystal-rich = greater than 25% crystals  
 Crystal-moderate = 10-25% crystals  
 Crystal-poor = less than 10% crystals

Phase II is entirely hangingwall ignimbrite. Footwall ignimbrite is not present in Bull Hill Sub-basin.
